

VERGER ACADEMY...

ABOUT US

VERGER Academy is a specialized ISO training and professional development institute committed to building competence in international management system standards. As the training division of the VERGER Group, we focus on delivering practical, industry-oriented ISO education that empowers individuals and organizations to achieve excellence, compliance, and sustainable growth.

Our programs are aligned with globally recognized standards issued by the International Organization for Standardization (ISO), ensuring participants gain accurate, up-to-date knowledge that can be directly applied in real business environments.

VISION AND MISSION

VISION

To provide awareness and quality practical knowledge of ISO

MISSION

To simplify ISO standards for practical use and empower professionals and organizations.

OUR CORE ISO TRAINING PROGRAMS

We offer comprehensive training on internationally recognized standards, including:

01

ISO 9001 – QUALITY MANAGEMENT SYSTEMS

Enhancing process efficiency, customer satisfaction, and operational control.

ISO 22000 – FOOD SAFETY MANAGEMENT SYSTEMS

Building a safer food system through effective risk control and regulatory alignment.

02

03
